

2019-2020 Section Meetings

10/16/2019

Honoring our Past Presidents: Pecha Kucha

Learning Objectives/Description:

- Loosely translated as “chit chat”, Pecha Kucha is a presentation style devised by two architects in Tokyo. The strictly regimented sequence of 20 slides, 20 seconds per slide forces creative people to hone the presentation of their work and ideas within those constraints.
- Our topic of “Back in My Day” aims to foster a look back on each Past President’s life, whether career or personal. Join the party and discover what members of the lighting community do with this theme.

Dave Huber, LC – Manager of Quotations – Elan Lighting

Dan Walsh – Regional Sales Manager – Innovative Energy Solutions, LLC

Christine Brotz, PE – Professor of Electrical Engineering - MSOE

Jim Knoerr, PE – Department Leader, Electrical Engineering - HGA Architects and Engineers

Holly Fitzsimmons – Electrical Designer – Staff Electric

Holly Blomquist, LC – Lighting Department Manager and Senior Designer – Ring & DuChateau, LLP

11/21/2019

Lighting + Acoustics

Learning Objectives/Description:

- Review fundamental principles of sound management.

- Review standards that govern acoustic requirements for diverse applications.

This meeting has been approved for 1 AIA/CEU hour

Michael McCoy, Marketing, Focal Point

1/16/2020

Exterior Architecture & Landscape Lighting

Learning Objectives/Description:

- Participants will learn lighting design techniques for dramatically illuminating exterior facades, entries, architectural details and landscapes
- Deeper understanding of the benefits of LED technology; intensities, optics, mounting locations, etc.

This meeting has been approved for 1 AIA/CEU hour

Bridget Ford Cross, Regional Sales Manager, Ecosense Lighting

IES MILWAUKEE 38

2019-2020 Section Meetings

2/12/2020

IES Quadrennial Tradeshow!

- - CEU's provided to those who attended private CEU classes

3/12/2020

WIRELESS LIGHTING CONTROLS—HOW TO DESIGN AND INSTALL

- Summary provided showing the big topology differences between traditional wired systems and wireless.
- Cost comparisons will be reviewed
- New vocabulary for designing systems will be reviewed along with how we discuss this new system with Owners so they understand and are comfortable with the reliability and security of a wireless system.

This meeting has been approved for 1 CEU, HSW and AIA hour

Rick Walsh, Product Manager for Commercial Systems, Lutron Electronics
