ILLUMINATION AWARDS

Ⓐ PROBLEM

Complexity of the Design   *Max Value 20 points*

Explains the project story and challenges that make this design unique.

❏ 1 – Poor
❏ 2 – Below Standard
❏ 3 – Meets Industry Standards
❏ 4 – Above Standard
❏ 5 – Distinctive/Excellent

pts x 4 = ☐

TOTAL MAX 20 PTS

Ⓑ CONCEPT

Lighting Concept   *Max Value 15 points*

How well does the lighting design reinforce the architectural environment of the building and site features? Is the approach original or unique?

❏ 1 – Poor
❏ 2 – Below Standard
❏ 3 – Meets Industry Standards
❏ 4 – Above Standard
❏ 5 – Distinctive/Excellent

pts x 3 = ☐

Controls Concept   *Max Value 5 points*

Are controls utilized effectively with respect to energy management and visual needs? Are the controls properly applied to support the lighting design?

❏ 1 – Poor
❏ 2 – Below Standard
❏ 3 – Meets Industry Standards
❏ 4 – Above Standard
❏ 5 – Distinctive/Excellent

pts x 1 = ☐

Integration   *Max Value 10 points*
Has the lighting equipment been integrated into the building and site effectively?

❏ 1 – Poor
❏ 2 – Below Standard
❏ 3 – Meets Industry Standards
❏ 4 – Above Standard
❏ 5 – Distinctive/Excellent

pts x 2 = ☐

TOTAL MAX 30 PTS

Ⓒ SOLUTION/EXECUTION

Performance Criteria Achieved   *Max Value 20 points*

How did the design answer the complexity of the problem? Does the project employ an innovative approach to the lighting solution?

❏ 1 – Poor
❏ 2 – Below Standard
❏ 3 – Meets Industry Standards
❏ 4 – Above Standard
❏ 5 – Distinctive/Excellent

pts x 4 = ☐

Visual Comfort   *Max Value 15 points*

Is the quality of the lighting appropriate for the user? Has the solution addressed user needs such as viewing comfort, glare, and contrast ratios?

❏ 1 – Poor
❏ 2 – Below Standard
❏ 3 – Meets Industry Standards
❏ 4 – Above Standard
❏ 5 – Distinctive/Excellent

pts x 3 = ☐

Energy and Environmental Design Implementation
Max Value 10 points

Does the project design achieve the stated goals for energy performance and night sky preservation? Does the project go above and beyond basic energy goals?

❏ 1 – Poor
❏ 2 – Below Standard
❏ 3 – Meets Industry Standards
❏ 4 – Above Standard
❏ 5 – Distinctive/Excellent

pts x 2 = ☐

TOTAL MAX 45 PTS

Ⓓ IMPACT

Max Value 5 points
How does this project positively enhance or impact the community it's serving?

❏ 1 – Poor
❏ 2 – Below Standard
❏ 3 – Meets Industry Standards
❏ 4 – Above Standard
❏ 5 – Distinctive/Excellent

pts x 1 = ☐
